DesPlaines Valley Mosquito Abatement District Warns of West Nile Virus, Tips to Avoid Exposure

The Des Plaines Valley Mosquito Abatement District has warned that West Nile Virus (WNV) levels within the adult mosquito population have reached extremely high levels where transmission to humans is imminent. The species of mosquito involved in WNV transmission is a passive mosquito, and not an aggressive biter, with its presence often going undetected. The DesPlaines Valley Mosquito Abatement District has maintained an aggressive mosquito larval control program throughout the summer against all mosquito species. Larval control operations are ongoing and will continue throughout the mosquito season. With escalation of WNV in the adult mosquito population last month, contingency adult mosquito control operations were instituted, and have focused on areas experiencing high WNV levels. Burr Ridge Police Remind Residents to Lock Their Car Doors, Keep Key Fobs, Etc. Inside House

With the increase in car thefts in neighboring communities and Burr Ridge, the Burr Ridge PD would like to remind everyone to keep their vehicles locked at all times, even in your own driveway. **Never leave your key fob or garage door openers in an unlocked vehicle**-that gives thieves the opportunity to steal your vehicles, enter your garages and homes, and creates potentially dangerous situations. Remember that thieves are looking for cars that are an easy mark and will randomly check car door handles to see if they are unlocked. Also, if you see unfamiliar vehicles driving slowly through the neighborhood or parking, they may be casing an area. **Call the police and report it!! Call 911 and they will check it out!**

Schools Are Back In Session!! Drive Cautiously, and Watch For School Bus Stops!

Summer is almost over, and local schools are about to start the 2018 - 2019 school year. Please be aware of children crossing the street - at corners and otherwise - as well as stopped school buses. Remember, when a school bus is stopped with the STOP arm out, drivers are required by law to STOP their vehicle, and remain stopped until the arm is retracted. Passing a school bus on the right side is never advisable, and please keep an eye out for children running to or from a stopped school bus. They are very easily distracted. Help keep kids safe - be aware, and remember that cell phone use is NOT legal in school zones. Hang up and drive, go slow, and NO texting!
